**SEI M4/M16 ARMORER'S WRENCH, NSN 5120-01-512-4959**  
**New US Military Standard Wrench for Carbine and Rifle**

The new standard US Marine Corps issue armorer's wrench for the M4/M16-series of weapons is now finally available on the commercial market. This extra heavy duty armorer's wrench provides easier installation and removal of M16 barrels, up to 1.25 inches in diameter, with either encapsulated or peg-style barrel nuts. Extra long handle features smooth contoured edges for torque wrench applications. Has 5/8" and 3/4" slots for receiver extensions and USGI and Vortex flash eliminators. *NOTE: Due to ongoing military requirements availability may be limited.*

*SPECS: 17-4 stainless steel, hammertone powdercoated, 12.0" long, 1.0" wide handle..*
